

The COVID case data in this report represent the number of positive COVID-19 cases as reported to the Department of Elementary and Secondary Education (DESE) by Local Education Agencies (LEAs) including school districts, charter schools, collaboratives, and approved special education schools.

Please note the definitions for the COVID-19 case data fields are as follows:

- (1) Reported positive cases for students: Number of reported positive cases for students who are enrolled in the school.
- (2) Reported positive cases for staff: Number of reported positive cases for district staff members employed by the school district.

Schools across the Commonwealth have returned to full-time, in-person instruction for this school year. In all K-12 grades, an estimated 920,000 students and 140,000 staff across the state are attending and working in our districts and schools. This report includes pooled testing results. More than 2,200 public and private schools across the Commonwealth are scheduled to participate in COVID testing of students and staff members being offered at no cost by the state, either rapid testing, pooled testing, test and stay, or a combination of all three. This is more than double the number of schools that participated in testing last year. The pooled testing data in this report show low positivity rates, close to 1 percent, and instances of in-school transmission are rare.

Notes:

1. Due to an accounting issue, the number of schools reported last week (2,296) was inaccurate; the number reported this week (2,251) is an updated count of the number of schools that have conducted a test since 8/30.
2. K-12 testing program summary report includes results from public schools, charter schools, approved special education schools, education collaboratives, and private schools. District level data does not include private schools.
3. Test and stay tests were first reported starting 9/13.
4. Tests conducted during a prior period (e.g., 9/20-9/26) but reported during the last period (11/29-12/5) are not included in the test and stay statistics for the most recent period. However, these tests are included in the "program total" results.
5. # in-person school days saved through test and stay assumes that each negative test resulted in a school day saved.
